*Re: the results of the 13<sup>th</sup> Meeting of the Interagency Working Group:*

***Dear Arsenii Petrovych,***

As previously reported, in Ukraine within two years the realization of the pilot project on implementation of the "Single window - local solution" in the area of the southern customs and ports of Odessa region is going on. The progress of the project was repeatedly recognized as successful by both Ukrainian and foreign observers.

To adequately support its holding on the principle of public-private partnership an Interagency working group (IWG), composed of representatives of several ministries and departments of Ukraine and the business community was created. The project initiator - Ukrainian national Committee of International chamber of Commerce (ICC Ukraine), undertook the Secretariat functions.

April 15, 2014 was held the 13th meeting of IWG (minutes attached), where, given the complexity for Ukraine's economic situation, stood up, among other things, the question of establishing a National strategy for the simplification of international trade procedures and logistics.

For its proper development and implementation, it is imperative to convey to managers understanding of involved government agencies, the importance of easiness of doing business for overcoming the crisis, as well as the need for systematic directions of joint efforts to achieve a positive result.

In view of the above, please give appropriate instructions to the heads of ministries and agencies - members of the IWG on ensuring the implementation of decisions of the 13th meeting of the IWG, primarily those that are aimed at mitigating the negative impact of the crisis on the economy of Ukraine.

Taking this opportunity, we express our readiness to cooperate in rebuilding our country.

**Truly yours,**
